3

HINGED CLAMSHELL

Materials: polypropylene + a natural mineral powder.

The addition of this powder greatly reduces the amount of plastic polymer in the finished product and yet increases its overall strength and rigidity.

This hybrid material is microwave safe and can withstand high heat!

With excellent 4-snap closure system.

Never a worry about the lid popping open!

It's simply the best to-go container on the market today!

Temp. Range: -15.5~140°C (4~280°F)

Corn Starch

Healthy material

Which have no harm to human health and are cleaner and hygienic than disinfection tableware.

Compostable

Starch tableware products are buried in soil. At suitable temperature, they can degrade to form carbon dioxide and water after 90 days, and do not pollute soil and air.

Low carbon emissions

It is a kind of degradable tableware, and even if thrown randomly, it will degrade, degradable products into carbon dioxide and water.

Vegetable starch

The production process is clean and hygienic, safe and environmentally friendly. Made of corn starch, 100% fully degradable.

Fully Renewable Concept & Compostable
